AWESOME PEDESTAL with great functions and at half the price of many comparable ones.

Reviewed in the United States on September 7, 2017

Verified Purchase

Great pedestal. I bought it to go with a seamander captain's chair and it fit perfectly. The ability to move the seat forward/backward, up/down, and rotate it all on this one pedestal without adding attachments was a big selling point for me. I read some comments about whether it was or wasnt able to rotate, and not sure what the people that said it does not were doing, but it absolutely does, and with no wobble either. I am over 200lbs and it works nicely. As one review said, oil the slide before use, as it will be a little sticky out of the box (and I am sure that is intentional, who wants to get a box that is covered in oil run off?) . The ONLY negative I have about this is it did NOT come with ANY hardware for attaching to the seat or boat floor. The seat I bought had screws to attach so that was not an issue, but since this is replacing the ugly old back to back fold down seats in my boat, I had to buy screws to mount it to the floor. I am guessing it did not come with hardware because some people use lag screws and some are able to use bolts to mount to the floor. For my application I had to use lag screws. Works like a champ! I would highly recommend this pedestal even over some of the much more expensive ones. I don't need the hydrolic lift and sure don't need to pay twice the price for it. I adjusted the seat to the height I want it and haven't had to move it once, nor do I expect to, but if I do, its a simple matter of pulling a pin and sliding it up or down.

Made in China = POS

VERY disappointed with this POS. Received and installed it 5 weeks ago on an offshore fishing boat. First time I had a chance to use was 3 weeks ago. Had it adjusted to max height and when I hit a wave it fell all the way to the bottom position. Had a chance to use it again this weekend. This time I adjusted the height and tightened the hand knob as much as possible. Same results, hit a wave and down it went. Luckily I didn't have my foot under it or it would have been broken. Now I'm past the Amazon 30 day return window. $152 down the toilet Arggh!

Wow Wise you are slipping, to start with the set I received the lowest setting is not 12" it is 13 1/4 had them installed and the boxes thrown away before I noticed, so no return next on low setting feels strong then goes down hill fast cheep plastic inserts, then there customer service or very much lack of is a waste of time, the phone they show is for a wise food products, the email is correct but they don't know the first thing about customer service there are a few real good company's out there - this is not one of them try trempress maybe.

Not worth the money.

Reviewed in the United States on August 28, 2018

I ordered this pedestal for my house boats helm seat . When arrived it looked like a quality piece but when my seat was mounted to it and I adjusted the hight it rocked and rattled like a cheap seat. The only way it felt solid was to use it at the lowest hight and tighten all adjustmens which defeats the purpose. All and all its not practical for me but I have it bolted to the deck using my own hardware, no hardware supplied . More or less I'm stuck with this piece of crap it's a shame I will prebably change it out soon and use the pedestal for an anchor . Adding to this review the bottom brackets just broke they are made of plastic. Try and get parts Amazon should not sell this pedistool.

Decent value

Reviewed in the United States on July 14, 2020

I use my Centurion Avalanche for wake surfing. When it's ballasted down it can be difficult for some operators to see over the bow. I removed the stock seat post and replaced it with this. Even in the lowest setting it added several inches to the height of the seat. It does not feel as sturdy as the stock post but that is to be expected with the addition of an adjustable height post. I weigh 270 pounds and for the few trips out I've taken so far it has held up.

One thing to note - the flange does not have the same bolt pattern as the stock seat post. The spacing and size were slightly smaller. I ovalized the bolt holes with a drill in order to get it to fit. I did not want to drill and tap additional holes in the deck.

Overall I am happy with the purchase.

Looks, slides and swivels great. Easy to install

Reviewed in the United States on January 15, 2020

Took the seat the swivel and the pedestal to Lowe's got the correct bolts so it swivels properly. It takes 4 8mm x 1" bolts 4 8mm nuts and lock tight. I judged 6 5/16 lag bolts into the floor of the boat. It's 5 inches too tall so I'm going to take it to a welding shop and remove 5 inches from the base. I'm going to add a 10x12 diamond plate to the floor for added stability.

Mostly happy with a few minor issues.
Reviewed in the United States on July 4, 2018

Great swivel/slide seat pedestal; however, when sitting on the seat, there is a lot of back and forth play in attachment to the pedestal, so the seat rocks. I worry about this over the long-term as a wear issue. Also, when sitting on it, it is not a smooth swivel. You have to work at it to turn it, even with the stop adjustment all the way out. All in all, I am happy with the purchase. Word of caution, the pedestal does NOT come with hardware to mount to your floor.

Exactly As Described And Extremely Well Priced
Reviewed in Canada on January 26, 2019
Verified Purchase

I ordered 2 pedestals, they arrived early and are exactly as described. They appear well engineered, they rotate, they slide forward and back and the up and down features are smooth and and all adjustments lock positively. Because the built in seat base slides forward and back on the pedestal, it is long enough that no adapter plate was needed to bolt directly to the mounting points on our seats. Something to consider when ordering a pedestal is the cost of the adapter plate which is probably not needed with this pedestal. So far, we are very pleased.
