From the manufacturer

Store your servers and network equipment in an open-frame, pull-out rack that you can rotate for easy access

Save Space in an Office/Server Room

The rack helps you save valuable floor space. It's designed for installation in small areas such as below a table or in a cabinet or cupboard.

Its versatility makes this the perfect rack for storing your servers in a boardroom, small office/home office, restaurant or any place where space is at a premium.

Keep Equipment Cool and Accessible

For easy equipment installation and maintenance, the 12U server rack's base is on sliding rails, which means it's easier to access the back of your equipment.

Maximize Accessibility

With its open-frame design, the rack not only maximizes accessibility but also offers unobstructed airflow to your equipment, providing passive cooling to keep your rack-mounted equipment running at optimal temperatures.

Product description

Size: **Slide-Out** | Style: **No Casters**

This 12U sliding-rotating open-frame network rack helps you save space while keeping your rack-mount equipment organized and accessible. The compact open-frame rack is easy to pull out and rotate, which makes it easy to install and access your equipment or perform maintenance when needed. This 12U sliding rotating rack designed for installation in small areas such as below a table or in a cabinet or cupboard and can support a total load capacity of 125lb. (56. 7kg). Its versatility makes this the perfect network rack for storing your servers in a boardroom, small office/home office, restaurant or any place where space is at a premium. For easy equipment installation and maintenance, the 12U server rack's base is on sliding rails, which means it's easier to access the back of your equipment. Durable storage for rackmount servers, KVM switches, and networking equipment. With its open-frame design, the rack not only maximizes accessibility but also offers unobstructed airflow to your equipment, providing passive cooling to keep your rack-mounted equipment running at optimal temperatures. The 4 post rack comes in a flat-packed box, which reduces shipping volume and significantly lowers cost when compared to racks that ship fully assembled. This open-frame network rack is backed by a StarTech 2-year and free lifetime technical support.

An excellent rack, but note that the specs are wrong regarding depth due to integral mounting feet.

Reviewed in the United States on October 25, 2017

Size: 12U | Style: with Casters | Verified Purchase

There's a lot to love about this rack. I purchased the 4POSTRACK12U product (these reviews cover many Startech racks). It was packaged for shipment extremely well, with each piece encased in bubble wrap. Despite the fact that the box was quite heavy, everything arrived in pristine condition (my first pleasant surprise).

I've bought a lot of racks and later wondered how the manufacturer could charge so much for some folded sheet metal. Many are overpriced and very cheaply made. This rack is well made and well designed. It assembled very quickly with one person.

Depth warning: The specs state that the (minimum) dimensions are 23.62 (D) x 25.1 (H) x 26.06 (W). While that's accurate for the actual frame of the rack, it excludes the mounting feet on the bottom of the rack, which are integral with the rack. Including the mounting feet, the rack is actually 27.5" deep, too deep to mount in the AV cabinet that I'm using. If the specs had been accurate, or if the feet were removable, this wouldn't have been an issue.

12U Adjustable Depth Open Frame 4 Post Server Rack

Reviewed in the United States on May 26, 2016

Size: 12U | Style: with Casters | Verified Purchase

From reading the reviews, it appears some of them are for other racks which makes it a little confusing. Someone commented that they couldn't mount 2 - 1u HP Proliant servers in their rack and someone replied that the rack they purchased wasn't designed for servers, but was for sound equipment instead. I am reviewing the rack in the subject line of the review, not the one that leans back or whatever.

I do have 2 HP 1u servers in my rack as well as a patch panel, a switch and a PoE injector. This thing is rock freaking solid when you get it bolted together and tightened down. This is going into my network closet when I get my house cabled so I'm glad it has casters on it so I can just wheel it in there when I am ready to park it and start punching down the cables.

This thing is like a tank. I don't doubt you could pack it out with full height servers and the metal is solid. All the hardware arrived with mine and I had more than enough to put what little I have in it with some left over. The cable management is a plus too in my opinion, at least for what I will be using this for.

Only complaint is the ball bearings in the caster wheels
Reviewed in the United States on July 25, 2019
Size: 12U | Style: with Casters | Verified Purchase

The rack comes in a very small, but heavy, box - almost hard to imagine it contains a 12U rack. Assembly instructions were concise, easy to follow, and could be done solo. Like several other reviewers, I was impressed at how sturdy this product is for the price. It comes with all the tools you need to assemble it. My only complaint is with the caster wheels. From the moment I opened the small brown box that held the four wheels, there were already 2-3 ball bearings just floating around loose in the box. Now that I have loaded equipment, I keep finding more ball bearings on the floor. It still seems to roll reasonably well (for now), but I will probably reach out to the manufacturer to find a solution. Of course - it will be difficult to change out the casters now that it is loaded out with AV equipment.

Great sturdy rack
Reviewed in the United States on January 11, 2015
Size: 12U | Style: with Casters | Verified Purchase

Shipped from amazon.com. Outside amazon box & inside OEM box showed signs of abuse at time of delivery, although nothing was missing or damaged. This item seems to be a newer designed rack compared to other StarTech.com racks. Capable of holding twice the weight of previous designs, it is very solid and sturdy.

Assembly was simple enough, it took me about 2.5 hours without rushing. The assembly instructions were a bit on the light side, however if one takes time and care it's relatively smooth. My first step in assembly was to unwrap all the pieces to get an ideal of what might go where. Initially a bit unclear, instructions had the rack on its side, I chose to assemble mine upright. It was very helpful to have an extra hand for a few steps, but unnecessary if one is patient and methodical. I hand tightened all bolts until the frame was complete, allowing for little trouble aligning bolts into the sleeve nuts. Only on one occasion did I misalign a bolt. It was very obvious that the bolt was cross threading due to the immediate difficulty in hand tightening. I pulled the bolt out and use more care to allow it to align properly. I aligned my side beams at positions 3 & 4 allowing for a 29 inch depth. I had no issues mounting Dell rapidrails or other rails. The kit

Solid entry level rack for any homelab

Really easy to assemble, although can be a little tricky to get the whole thing sitting square with one pair of hands. Solid rack, really stable and the adjustable depth is a great idea. Including the required tools is a nice touch. Having the cable management on the outside of the rack is not for me personally, but if you have a gap you can run cables through you can get it looking really tidy.

Ordered with two days to go to a trade show, - arrived in time, assembled, populated and shipped in time to take its place on the trade stand in California thus saving our collective bacon and averting embarrassment all round. The build is solid and very robust with good quality fittings despite the basement price, - very adjustable which is excellent for a variety of needs

The people saying it's not sturdy must have the two post version. I got the 4 post 12u rack and it is solid. Pretty easy to put together too, and comes with the the tools required. Can't ask for more.

I bought the 12U 4-post as I wanted something to sit next to my desk. This was easy to assemble and a perfect height, the adjustable depth is also a great feature. I have since cut and attached a sheet of wood to the top.
