NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NAVD).

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew.

2015 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A.A. Navigation Chart No. 11370.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

Distribution Liability: The data represents the results of data collection by the U.S. Army Corps of Engineers activity and indicates the general existing conditions. As such it is only valid for its intended use, context, time and accuracy of the data. The U.S. Army Corps of Engineers accepts no responsibility for any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change without notice due to subsequent natural and man-made activity and natural shoaling and scouring processes. The U. S. Army Corps of Engineers accepts no responsibility for changes in the environment that occurred after the date of the publication. This data is intended for U. S. Army Corps of Engineers internal use. Private business should not rely solely upon it.

DISCLAIMER
Access Constraints: The United States Government furnishes these data and information as a courtesy to the recipient and may not be released to others with the express consent of the United States Government. Unless otherwise expressed, or implied concerning the accuracy, completeness, reliability, or suitability of these data and information, the United States shall in no event be liable for any damages arising from the recipient's use of the data and information furnished. The United States shall be held harmless by the recipient from any claim, cost, damage, or expense incurred or assessed against the United States under no liability whatsoever to any person by reason of any use made thereof. The recipient fully agrees not to represent these data to anyone as other than the best available data of the United States and to furnish these data to others without also transferring this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered as represent the general conditions existing at that time.
