Gage Reading:	-0.2 MLLW @ PILOT TOWN @ 1005
Sea Conditions:	CALM
Vessel Name:	TOBIN
Survey Type:	CONDITION, SB
Sounding Frequency***:	LOW

Feet
0 500 1,000 1,500 2,000 2,500

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 12-16).
Datum Relationships for gage 01525 as of March 2020:
0.0' NAVD88, 2009.55 = -0.53' MLLW = 2.97' MLG

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2022 Aerial Photography data source: Optimal GEO (1998 DOQQ in green)

Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

Distribution Liability: The data represents the results of data collection, analysis and processing at the time of survey activity and indicates the general existing conditions. As such, it is only valid for its intended use; content, time and accuracy of the data beyond this intended use is the sole responsibility of any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change over time due to natural shoaling and scouring processes. The U.S. Army Corps of Engineers makes no warranties as to the stability of the hydrographical conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers' internal use. Project reviewers based on this survey report.

DISCLAIMER
Access Constraints: The United States Government furnishes this map/chart/data/information/product/service as a courtesy to users and makes no express, or implied concerning the accuracy, completeness, reliability, suitability, or usability of the information and the data furnished. The United States shall be not liable for any damages suffered as the result of using, or relying upon, the information made thereof. These data belong to the Government. Therefore the recipient fully agrees not to represent these data to anyone as other than Government data or information and agrees not to represent these data to others without also transferring this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered as represent the general condition existing at that time.
