

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. Such representations are not warranties of accuracy or reliability and are not intended to be used for engineering purposes. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activities and natural shoals and changes in river bed elevation. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to reflect the general condition existing at that time.
