

LEGEND

--- Federal Navigation Channel	○ Cable Area	3 Fluff Thickness (feet)*	■ -16' and above
— Federal Navigation Center Line	□ Placement Area	● Shoalest Sounding**	■ -16' to -21'
— As-built Pipeline/Cable	□ Anchorage Area	★ Beacon, General	■ -21' to -26'
..... Unconfirmed Pipeline/Cable	⊗ Obstruction Point	◆ Red Navigation Buoy	■ -26' to -33'
— Project Depth Contour	⚓ Wrecks-Submerged	◆ Green Navigation Buoy	■ -33' to -39'
			■ -39' to -41'
			■ -41' to -43'
			■ -43' and below

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water Datum (MLLW).
Datum Relationships for gage 73625 as of December 2013:
0.0' NAVD88 (2009.55) = 1.2' MLLW = 2.2' MLG or 0.0' MLLW = 1.0' MLG

Distances on the Calcasieu River are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE survey crews.

2022 Aerial Photography data source: PAR LLC
Reference is N.O.A. Navigation Chart No. 11339.

* Difference between high and low frequency elevations where greater than 1.0'.
** Shoalest Sounding per Quarter per Reach.
*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

ACCESS NOTES:
Access Constraints: The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that the data are not warranted for accuracy, completeness, readability, usability or suitability for any particular purpose of the recipient. The user is responsible for the results of any use of the data. The user shall not be held liable for any use of the data under no liability whatsoever to any person by reason of any use made hereof. These data are the property of the United States Government and are loaned to the recipient for their use only. The recipient may not transfer these data to others without the written consent of the United States Army Corps of Engineers. The recipient shall not be held liable for any use of the data. The information depicted on this map represents the results of a survey conducted on or about the date of the survey. The information is considered to represent the general condition existing at that time.

DISTRIBUTION LIABILITY: The data represents the results of data collection/processing for a specific US Army Corps of Engineers project. The data is not warranted for accuracy, completeness, readability, usability or suitability for any particular purpose of the recipient. The user is responsible for the results of any use of the data. The user shall not be held liable for any use of the data under no liability whatsoever to any person by reason of any use made hereof. These data are the property of the United States Government and are loaned to the recipient for their use only. The recipient may not transfer these data to others without the written consent of the United States Army Corps of Engineers. The recipient shall not be held liable for any use of the data. The information depicted on this map represents the results of a survey conducted on or about the date of the survey. The information is considered to represent the general condition existing at that time.
