

Compass rose showing North (N), South (S), East (E), and West (W). Below the compass rose is a scale bar labeled "Feet" with markings for 0, 500, and 1,000.

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Low Gulf Datum (MLG).

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2021 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office

Reference is N.O.A.A. Navigation Chart No. 11367 and 11368.

**** Shoalest Sounding per Quarter per Reach.**

****** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and bathymetric settings.
