

Distribution Liability. The data represents the results of data collection and analysis. It is not intended to be used for any activity and indicates the general existing conditions. As such, it is only valid for its intended use, content, time and accuracy specifications. The user is responsible for the results of any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to natural factors including but not limited to dredging activity and severe shoaling and scouring processes. The U. S. Army Corps of Engineers accepts no responsibility for changes in bathymetry. This data is intended for U. S. Army Corps of Engineers publication. Prudent mariners should not rely solely upon it.

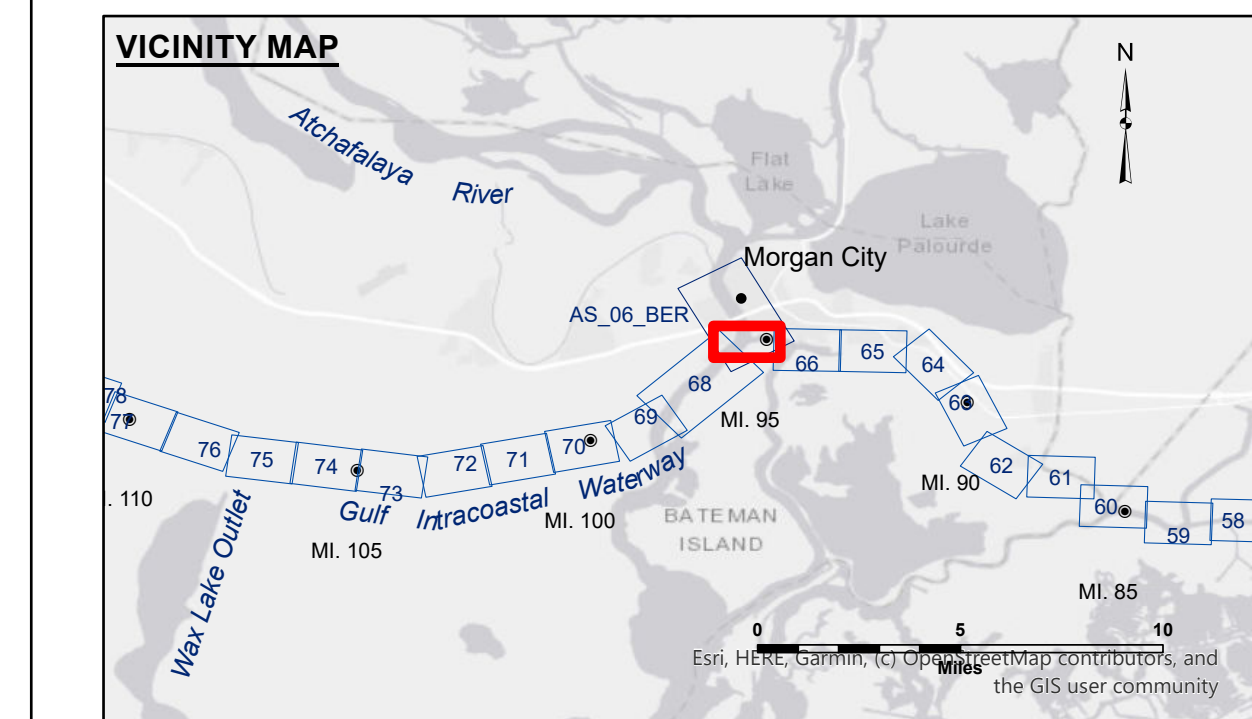

DISCLAIMER The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that the U.S. Government makes no warranties, expressed or implied concerning the accuracy, completeness, timeliness, usability or suitability for any particular purpose of the information and the data furnished. The United States shall be held harmless from any liability for damages, claims, or losses, in whole or in part, arising from the use of these data. These data belong to the Government. Therefore the recipient fully agrees not to represent these data to anyone as other than Government provided data. The recipient may not transfer these data to others without also transferring this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.

--- Federal Navigation Channel	○ ○ ○ Cable Area	□ Borrow Area	□ -6' and above
— Federal Navigation Center Line	▭ Placement Area	● Shoalest Sounding**	□ -6 to -8
— As-built Pipeline/Cable	▭ Anchorage Area	★ Beacon, General	□ -8 to -10
..... Unconfirmed Pipeline/Cable	⊗ Obstruction Point	★ Beacon, General	□ -10 to -12
— Project Depth Contour	✈ Wrecks-Submerged	◆ Red Navigation Buoy	□ -12' to -15'
		◆ Green Navigation Buoy	□ -15' to -18'
			□ -18' to -20'
			□ -20' and below

Gage Reading: MORGAN CITY: 2.74 MLG AVG.
Sea Conditions: CALM
Vessel Name: OB-169
Survey Type: CS
Sounding Frequency***: 200

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Low Gulf Datum (MLG).
Datum Relationships for Lower Atchafalaya River at Morgan City (03780) as of 2025:
0.0' NAVD83 (2009.55) = 2.19' MLG

The location of navigation aids are base on and provided by the U.S. Coast Guard.

2021 Aerial Photography data source: NAIP

Reference is N.O.A.A. Navigation Chart No. 11355.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.
