

Distribution/Liability. The data represents the results of data collection/processing for a specific U.S. Army Corps of Engineers activity and indicate the general existing conditions. As such, it is only valid for its intended use, content, time and accuracy specifications. The user is responsible for the results. The use of any of the application of this data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activity and natural shifting and scouring processes. The U.S. Army Corps of Engineers is continuously updating the data and the hydrographic conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers' internal use. Prudent mariners should not rely solely upon it.

DISCLAIMER: The United States Government furnishes these data and the US Government acquires and uses them with the understanding that the recipient acquires and uses them with the understanding that the US Government makes no warranties, expressed, or implied concerning the accuracy, completeness, readability, suitability or liability for any particular purpose of the information and the data furnished. The United States shall be held harmless from any and all claims, damages, and expenses, made thereof. These data belong to the Government. Therefore the recipient fully agrees not to represent these data to anyone as other than Government provided data. The recipient may not transfer these data to others without also transferring this Disclaimer. The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.

MISSISSIPPI RIVER - B.R. TO GULF
ARLINGTON - SHEET 1
MD_02_AR1X_20260427_CS
27 April 2026

Sheet
Reference
Number
2 of 97

Revision Number:
5.26.04.06-5.26.04.06

LWRP: 2.5
Gage Reading: BR:17.7 D:10.2 USED 17.6 NAVD
Sea Conditions: CALM
Vessel Name: LAFOURCHE
Survey Type: CONDITION
Sounding Frequency***: HIGH

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NAVD).

Distances on the Mississippi River, above and below Head of Passes are shown
at 1 mile intervals.

The location of navigation aids are based on and provided by the U.S. Coast Guard and USACE crew.

2021 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A.A. Navigation Chart No. 11370.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding
location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz)
survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom
material. Low frequency accuracies may vary depending on channel conditions and fathometer
settings.
