Sea Conditions:	CALM
Vessel Name:	LAFOURCHE
Survey Type:	CS
Sounding Frequency***:	HIGH

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NAVD).

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew.

2010 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A.A. Navigation Chart No. 11370.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

US Army Corps of Engineers
District: CEMVN

Distribution Liability: The data represents the results of data collection and processing activities performed by or for the U.S. Army Corps of Engineers. It is only valid for its intended use, context, time and accuracy as it relates to the general existing conditions. As with any of the application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change activity and natural shoaling and scouring processes. The U. S. Army Corps of Engineers accepts no responsibility for changes in publication. This data is intended for U. S. Army Corps of Engineers' internal use. Project mariners should use only widely upon it.

DISCLAIMER:
Access Constraints: The United States Government furnishes these data and the USACE assumes no liability with the express expressed, or implied concerning the accuracy, completeness, under no liability whatsoever to any person by reason of any use information and the data furnished. The United States shall be recipient fully agrees not to represent these data to anyone as other than data to others without also transferring this Disclaimer.

The information depicted on the map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
