DISTRIBUTION LIABILITY: The data represents the results of data collection processes for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not intended to be used for engineering or scientific applications. The user is responsible for the results of any use of the data for other than its intended purpose.

DATA CONSTRAINTS: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activity and natural shoaling and scouring processes. The US Army Corps of Engineers does not guarantee the accuracy of the hydrographic conditions shown on this map. The user is responsible for the results of any use of the data for other than its intended purpose.

This information depicts on the date the map represents the results of a survey conducted on the date indicated and can only be considered to be current with the general condition existing at that time.
