DISTRIBUTION LIABILITY: The data represents the results of data collection/processing for a specific U.S. Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not necessarily representative of the most current or accurate information available. The United States makes no guarantee concerning the accuracy of the data. The user is responsible for the results of any use of the data for other than its intended purpose.

DATA CONSTRAINTS: Hydrographic survey data is subject to change due to several factors including but not limited to dredging operations and natural shoaling and scouring processes caused by the hydrographic conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers internal use. Published statements should not be relied upon.
