Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not necessarily accurate or complete for other uses. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to natural factors including but not limited to dredging operations, subsidence, shoaling, and scouring processes caused by the hydrographic conditions when developing the data. The information depicted on this map represents the results of a survey conducted on this date and can only be considered to represent the general condition existing at that time.
