Distribution liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, these data and the information contained therein are provided "as is" without warranty of any kind. The user assumes responsibility for the use of these data and is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities, natural shoaling and scouring processes, changes in the hydrographic conditions over time, and development of the area. The data is intended for U.S. Army Corps of Engineers use only. The user agrees not to represent these data to anyone as other than the Government-provided data. The user agrees not to transfer these data to others without also transferring this Disclaimer.

This information depicts the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time. The information on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
