

Distribution liability: The data represents the results of data collection/processing by a specific US Army Corps of Engineers activity and indicates the general existing conditions as such. The user is responsible for the results of any application of the data for other than its intended purpose.

Data constraints: Hydrographic survey data is subject to change resulting due to several factors including but not limited to dredging activities, sand shoaling and current patterns. The U.S. Army Corps of Engineers does not warrant or guarantee the accuracy of the hydrographic survey data provided to the user under no liability whatsoever to any person by reason of any use or reliance upon such data to determine water depths or to use such data to others without so sending this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to apply to the general condition existing at that time.
