

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, these data and the recipient accepts and uses them "as is", without warranty or guarantee of fitness for a particular purpose. The United States shall not be liable for damages resulting from the use of the information and the data furnished. The United States shall not be under no duty whatsoever to any person by reason of any use made of the data furnished. The United States shall not be liable for any damages resulting from the use of the data furnished.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities and natural shoaling and scouring processes. The U.S. Army Corps of Engineers shall not be liable for damages resulting from the use of the hydrographic conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers internal use. Pipeline owners should rely solely upon Elevation Data.

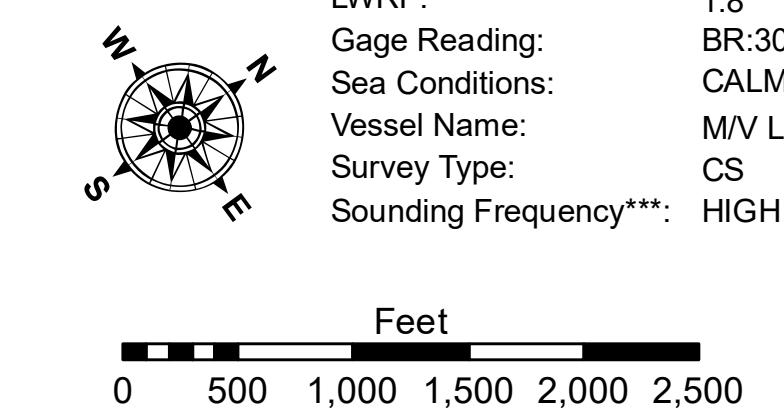

Disclaimer: The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
