

DISCLAIMER

Access Constraints: The United States Government furnishes this information as is without warranty of any kind, either expressed or implied, including, but not limited to, accuracy, completeness, or suitability for any particular purpose. The user assumes the responsibility for using the information and the data furnished. The United States shall make no representation or warranty, expressed or implied, and shall not be held liable for any damages resulting from the use of the information. These data belong to the United States and are being made available to the recipient on a nonexclusive basis. The Government provided data. The recipient may not transfer these data to others without also transferring this disclaimer.

Distribution Liability: The data represents the results of data collection and analysis by the United States Government and its employees and indicates the general existing conditions. As such, the data is not intended to be used for legal or regulatory purposes. The user is responsible for the results of any use of the application of the data other than its intended purpose.

Hydrographic Survey Data: Hydrographic survey data is subject to change due to the dynamic nature of the ocean. The data may vary due to several factors including but not limited to: U.S. Army and natural bounding and scattering processes. The U.S. Army does not warrant the accuracy of the data. The data is in the hydrographic collection which is subject to change. The data is not intended to be used for legal or regulatory purposes. The user is responsible for the results of any use of the data other than its intended purpose. Prudent mariners should not rely solely on this data.

MISSISSIPPI RIVER - B.R. TO GULF
BAYOU GOULA CROSSING
MD_13_GOU_20260709_CS
09 July 2026

Sheet
Reference
Number
13 of 97

Revision Number:
5.26.05.21-5.26.05.21

NOTES:

Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NAVD).

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew

2021 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A.A. Navigation Chart No. 1

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.
