Distribution liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions as such. It is not to be used for engineering or scientific purposes. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Content: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activity and natural shoaling and coining processes. The U.S. Army Corps of Engineers shall not be liable for damages resulting from the use of this data to others without also consulting this Disclaimer.

This information depicts on this date the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
