Distribution liability: The data represents the results of data collection/processing using a specific US Army Corps of Engineers active and inoperative surveying conditions as such. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Conventions: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activities and natural shoaling and scouring processes. The data is intended for U.S. Army Corps of Engineers internal use. Plaintiff states that it is solely upon the hydrographic conditions which develop after the date of internal use. Plaintiff states that it is not to rely upon it.
