Distribution Notice: The data represents the results of data collection/processing by a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not necessarily representative of the results required for any particular application. The user is responsible for the results of any use of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activities and natural shoals and scouring processes caused by the hydrographic conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers internal purposes. It is not to be used for navigation or engineering applications without also consulting the latest edition of the U.S. Army Corps of Engineers Navigation Chart.
