**Survey Data**  
 LWPR: 1.1  
 Gage Reading: R:20.3NO:14.5 USED:16.6 NGVD  
 Sea Conditions: CHOP  
 Vessel Name: OB-167  
 Survey Type: CONDITION  
 Sounding Frequency\*\*\*: HIGH

**NOTES:**

Horizontal Coordinate System:  
 North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:  
 Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NGVD).  
 Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew.  
 2010 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A. Navigation Chart No. 11370.  
 \*\* Shoalest Sounding per Quarter per Reach.  
 \*\*\* High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

**ACCESSORIES:**  
 Access: Contractors. The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that they are not to be used for any purpose other than that for which they were prepared. The user is responsible for the results, reliability, usability or suitability for any particular purpose of the data. No warranty is made by the Government, and the Government is under no liability whatsoever to any person by reason of any use made thereof. These data belong to the Government. Therefore the recipient may not transfer, copy, reproduce, or otherwise use these data for purposes other than those for which they were prepared without the express written consent of the Army Corps of Engineers. The recipient shall be responsible for changes in these data to others without transferring this Disclaimer. The information depicted on this map represents the results of a survey conducted on or about the date indicated. The Corps of Engineers' internal use. Product maintainers should not rely solely upon it.
