

DISCLAIMER

The information depicted on this map represents the results of a survey conducted by the U.S. Army Corps of Engineers (USACE) for the purpose of determining the placement area for a pipeline or cable. The data represents the results of data collection/processing for a specific US Army Corps of Engineers project and is only valid for its intended use, context, time and accuracy specifications. The user is responsible for the results and any application of the data for other than its intended purpose. The application of the data for other than its intended purpose is at the user's own risk.

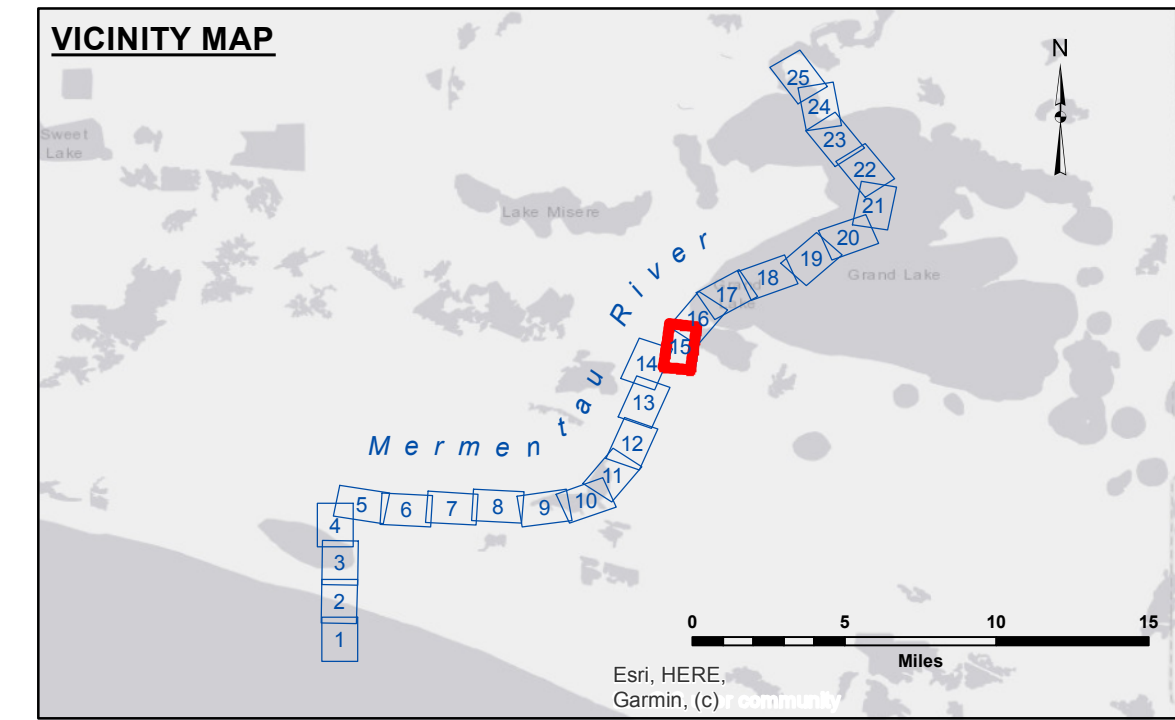

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers project and is only valid for its intended use, context, time and accuracy specifications. The user is responsible for the results and any application of the data for other than its intended purpose. The application of the data for other than its intended purpose is at the user's own risk.

Data Constants: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging, scour, and shifting sandbars. The user is responsible for the results and any application of the data for other than its intended purpose. The application of the data for other than its intended purpose is at the user's own risk.
