

US Army Corps of Engineers
District: CEMVN

DISCLAIMER
Distribution Limitation: The data represents the results of data collection processing for a specific US Army Corps of Engineers activity and does not represent the general existing conditions. As such, only data for its intended use should be used for them and no inference should be made as to the applicability of the data for other than its intended purpose.
Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activity and new charting and sounding processes. The US Army Corps of Engineers does not guarantee the accuracy of the hydrographic conditions which develop after the date of publication. This data is intended for use by the US Army Corps of Engineers internal use. Professional mariners should not rely upon it.
Survey Constraints: The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that the US Government makes no warranty, expressed or implied, as to the reliability, usability or suitability for any particular purpose of the information and the data furnished. The United States shall be liable only for damages resulting from the use of the data if the information furnished is used in a negligent manner. Therefore, the recipient shall be responsible for any damages resulting from the use of the data if the recipient negligently uses the data. The recipient may agree to represent these data to anyone else other than the Government provided that the recipient is aware of the responsibilities and liabilities associated with doing so. The information depicted on this map represents the results of a survey conducted under the general conditions existing at that time.
