

ES:

Horizontal Coordinate System:  
North American Datum of 1983 (NAD83), projected to the State Plane  
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet

al Datum:  
Readings are shown in feet and indicate depths below Mean Low Gulf Datum (MLG).

Location of navigation aids are base on and provided by the U.S. Coast Guard  
G-107

and I think you do it. — NMR

Aerial Photography data source: NAIP  
Source is N.O.A.A. Navigation Chart No. 11354.  
Deepest Sounding per Quarter per Reach.  
High frequency (200 kHz) survey data represents the first signal return at a sounding  
ton and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz)  
y data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom  
rial. Low frequency accuracies may vary depending on channel conditions and fathometer
