LWRP: 2.8
Gage Reading: RR:36.99 BR:21.12 @ 0600 USED:21.4 NGVD
Sea Conditions: SMOOTH
Vessel Name: LAFOURCHE
Survey Type: RECON
Sounding Frequency*:** HIGH

0 500 1,000 1,500 2,000 2,500
Feet

NOTES:

Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum: Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NGVD). Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew. 2010 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A.A. Navigation Chart No. 11370.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

Distribution Liability: The data represents the results of data collection processed for a specific US Army Corps of Engineers activity and includes the general existing conditions as such. The data is not necessarily accurate or complete for any other purpose. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activities and natural shoaling and scouring processes. The US Army Corps of Engineers does not warrant the data for use in hydrographic conditions when developed after the date of publication. This data is intended for U.S. Army Corps of Engineers use only. Please contact the US Army Corps of Engineers for further information.
