Feet

**NOTES:**

Horizontal Coordinate System:  
North American Datum of 1983 (NAD83), projected to the State Plane  
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:  
Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NGVD).  
Distances on the Mississippi River, above and below Head of Passes are shown  
at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew.  
2010 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office.

Reference is N.O.A.A. Navigation Chart No. 11370.

\*\* Shoalest Sounding per Quarter per Reach.

\*\*\* High frequency (200 kHz) survey data represents the first signal return at a sounding  
location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz)  
survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom  
material. Low frequency accuracies may vary depending on channel conditions and fathometer  
settings.

US Army Corps of Engineers  
District: CEMVN

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and includes the general existing conditions, such as, but not limited to, boundaries, names, locations, descriptions, and other features. The data is not necessarily the result of a formal survey. The user is responsible for the results of any application of the data for other than its intended purpose.  
Data Constraints: Hydrographic survey data is subject to change rapidly due to severe events including but not limited to dredging activities and natural shoaling and scouring processes. The data is provided for information purposes only. The user is responsible for the hydrographic conditions when developing after the date of publication. This data is intended for U.S. Army Corps of Engineers internal use and shall not be sold or distributed outside the U.S. Army Corps of Engineers without prior written approval.
