

Distribution Notice: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not necessarily suitable for other applications without further processing. The user is responsible for the results of any use of the data for other than its intended purpose.

Data Constraints: Hydrographic data is subject to change rapidly due to several factors including but not limited to dredging activities and natural shoals and scouring processes. The U.S. Army Corps of Engineers does not warrant the hydrographic conditions shown on this data. The user is responsible for developing their own survey or analysis based on the data provided. The data is intended for U.S. Army Corps of Engineers internal use. This data is not intended for public release or publication. The data is not intended for use by other government agencies or the public without permission from the U.S. Army Corps of Engineers.
