Distribution Label: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and includes the general existing conditions. Such data is not necessarily current or accurate. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activities and natural shoals and currents. The user is responsible for the hydrographic conditions when developing the data after publication. This data is intended for U.S. Army Corps of Engineers use only. All rights reserved. The data is provided "as is" without warranty of any kind.
