DISTRIBUTION LIABILITY: The data represents the results of data collection processing by a specific US Army Corps of Engineers activity and includes the general existing conditions as such. The United States Government makes no warranties, expressed or implied, concerning the accuracy of the data or its suitability for any particular purpose. The United States shall not be liable for damages resulting from the use under no liability whatsoever of any portion or all of the data furnished. The user is responsible for the results of any application of the data for other than its intended purpose.

DATA CONSIDERATIONS: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activity and natural shoaling and scouring processes. The U.S. Army Corps of Engineers and the data holder are not responsible for changes in hydrographic conditions which develop after the date of publication. This data is intended for U.S. Army Corps of Engineers internal use. Plaintiff claimants should not rely upon it.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to depict the general condition existing at that time. It is the responsibility of the user to determine whether the data is current before relying on it.
