**DISTRIBUTION STATEMENT:** The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions such as such. The user is responsible for the results of any application of the data for other than its intended purpose.

**Data Constraints:** Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities and natural shoaling and subsidence. The data is provided in the hydrographic conditions which were current at the time of publication. This data is intended for U.S. Army Corps of Engineers internal use. Private studies should not be based upon it.
