

Distribution liability: The data represents the results of data collection processed by a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the user accepts responsibility for the use of the data. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities and natural shoaling and scouring processes. The data is intended for U.S. Army Corps of Engineers internal use. Public users should not rely solely upon it.
