**US Army Corps of Engineers**  
District: CEMVN

**DISCLAIMER**  
The data represents the results of data collection and processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions as such. Such data is not necessarily accurate or complete and is subject to revision. The user is responsible for the results of any application of the data for other than its intended purpose.

**DATA STATEMENT**  
Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities and natural shoaling and scouring processes. The U.S. Army Corps of Engineers does not warrant the data as hydrographic conditions at the time of publication. This data is intended for U.S. Army Corps of Engineers and their contractors who develop plans of a survey condition and can only be considered to represent the general condition existing at that time.
