

DISCLAIMER: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions as such. Such data is not necessarily the most current information available. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities, sand shoals and currents associated with the U.S. Army Corps of Engineers navigation channel, and changes in the hydrographic conditions over time. This data is intended for U.S. Army Corps of Engineers use only and shall not be used for navigation purposes. The user is responsible for any use of this data to others without also sending this Disclaimer.

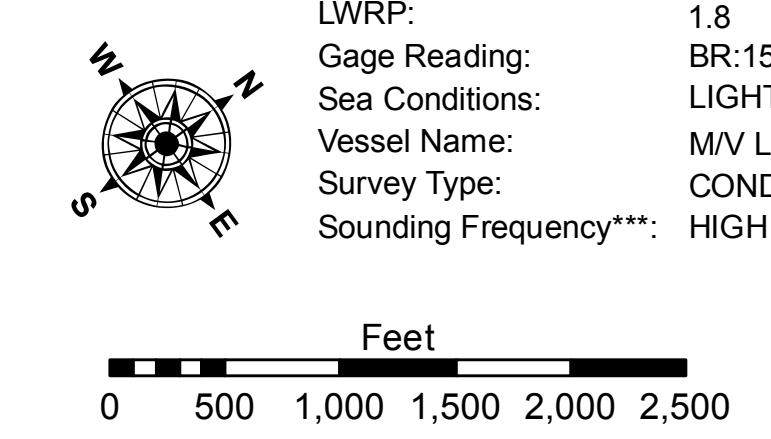

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
