US Army Corps of Engineers
District: CEMVN

Distribution liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not necessarily accurate or complete. It is the express intent of the US Army Corps of Engineers that the data be used for reference purposes only. The user is responsible for the results of any application of the data for other than its intended purpose.

Data constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities, natural shoals and scouring processes, changes in the hydrographic conditions over time, and the rate of development after publication. This data is intended for U.S. Army Corps of Engineers use and shall not be used for navigation purposes. The user is responsible for verifying the data against the latest available hydrography.

Disclaimer: The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
