Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data and the information derived from them are not intended for navigation or engineering applications. The user is responsible for the results and their interpretation and application. The United States shall not be liable to any person for damages resulting from use of the data or information contained therein. The United States shall not be liable to any person for damages resulting from use of the data or information contained therein.

Data Conditions: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities, natural shoaling and scouring processes, changes in the hydrographic conditions over time, and development of the waterway.

Disclaimer: This data is intended for U.S. Army Corps of Engineers internal use and shall not be sold to third parties. The data is for informational purposes only and is not to be considered survey grade. The data is subject to change due to natural processes and development of the waterway.
