Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the data is not necessarily accurate or complete for any specific application. The user is responsible for the results of any use of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities, natural shoaling and scouring processes, changes in the hydrographic conditions over time, and development of the river.

Disclaimer: This data is intended for U.S. Army Corps of Engineers internal use only. It is not to be distributed outside the Corps of Engineers without prior approval from the Corps of Engineers.
