

<b>LEGEND</b>		<b>LWRP:</b>	
—	Federal Navigation Channel	0' and above	1.7
—	Federal Navigation Center Line	0' to -5'	BR:10.5 D:7.53 USED:8.40 NGVD
—	As-built Pipeline/Cable	-5' to -10'	Sea Conditions: CALM
.....	Unconfirmed Pipeline/Cable	-10' to -20'	Vessel Name: OB-189
—	Project Depth Contour	-20' to -30'	Survey Type: CONDITION
		-30' to -35'	Sounding Frequency***: HIGH
		-35' to -40'	
		-40' to -45'	
		-45' and below	

**NOTES:**

Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum: Soundings are shown in feet and indicate depths below Low Water Reference Plane 2007 (NGVD). Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

The location of navigation aids are base on and provided by the U.S. Coast Guard and USACE crew. 2010 Aerial Photography data source: NAIP, USDA-FSA-APFO Aerial Photography Field Office. Reference is N.O.A.A. Navigation Chart No. 11370.

\*\* Shoalest Sounding per Quarter per Reach.

\*\*\* High frequency (20 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

Distribution liability: The data represents the results of data collection processing by a specific US Army Corps of Engineers activity and includes the general existing conditions as such. The United States Government makes no warranties, expressed or implied, regarding the accuracy of the data. The user assumes responsibility for the results of its application of the data for other than its intended purpose.

Data Conventions: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activities and natural shoaling and scouring processes. The data is provided as is and is not guaranteed to be accurate.

Disclaimer: The data is intended for U.S. Army Corps of Engineers internal use. This data is not suitable for use in hydrographic conditions which develop after the date of publication. The data is provided as is and is not guaranteed to be accurate.
