

Distribution liability: The data represents the results of data collection/processing by a specific US Army Corps of Engineers active and relates to the general existing conditions. As such, the data is not intended for use in engineering or scientific applications. The user is responsible for the results of any use of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activity and natural shoaling and scouring processes. The data is provided as is and is not guaranteed to be accurate. The user is responsible for the use of the data and is advised to consult the latest hydrographic survey data available.

Data Use: This data is intended for U.S. Army Corps of Engineers internal use. Please submit comments to the Data Manager.
