DISTRIBUTION STATEMENT: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and includes the general existing conditions. As such, it is not necessarily the most current data available. The user is responsible for the results of its application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change due to several factors including but not limited to dredging activities and natural shoals and scouring processes. The US Army Corps of Engineers maintains the most current hydrographic conditions through the use of continuous monitoring systems. This data is intended for U.S. Army Corps of Engineers internal use. Please contact the US Army Corps of Engineers for further information.
