

LEGEND

NOTES:
Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
Soundings are shown in feet and indicate depths below National Geodetic Vertical Datum of 1929 (NGVD29).

The location of navigation aids are based on and provided by the U.S. Coast Guard. Positions of navigation aids shown may also have been surveyed in the field by USACE.

2015 Aerial Photography data source: NAIP. 1998 DOQQ imagery shown in green from USGS.

Reference is N.O.A.A. Navigation Chart No. 11354.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

DISCLAIMER

The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that the recipient is to use them only for the purposes expressed, or implied, concerning the accuracy, completeness, reliability, usability or suitability for any particular purpose of the recipient. The user is responsible for the results obtained from the use of these data, and the user shall indemnify and hold the United States Government harmless from all claims, damages, and expenses, including reasonable attorneys' fees, which may be asserted against the United States Government by third parties as a result of the use of these data.

The information depicted on this map represents the results of a survey conducted by the United States Army Corps of Engineers. The information is considered accurate as of the date of the survey. The Corps of Engineers does not warrant the accuracy of the information for any other purpose or for use in any other project. The Corps of Engineers does not accept any responsibility for changes in the hydrographic conditions which develop after the date of the survey. The Corps of Engineers does not accept any responsibility for damage to property or injury to persons resulting from the use of this information.
