

ACCESS NOTES:
 Access: The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that they are not to be used for any purpose other than that for which they were prepared or implied concerning the accuracy, completeness, reliability, usability or suitability for any particular purpose of the recipient. The user is responsible for the results of any use of these data. The application of the data for other than its intended purpose is at the user's risk. The United States Government makes no warranty, expressed or implied, for the accuracy, completeness, reliability, usability or suitability of these data for any purpose other than that for which they were prepared. The recipient may not transfer these data to others without the written consent of the District Engineer. The information depicted on this map represents the results of a survey conducted on the ground and is not to be considered as a representation of the general condition existing at that time.

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers project. It is only valid for its intended use, content, time and accuracy specifications. The user is responsible for the results of any use of these data. The application of the data for other than its intended purpose is at the user's risk. The United States Government makes no warranty, expressed or implied, for the accuracy, completeness, reliability, usability or suitability of these data for any purpose other than that for which they were prepared. The recipient may not transfer these data to others without the written consent of the District Engineer. The information depicted on this map represents the results of a survey conducted on the ground and is not to be considered as a representation of the general condition existing at that time.

LEGEND

--- Federal Navigation Channel	○ Cable Area	□ Borrow Area	■ -8' and above
— Federal Navigation Center Line	□ Placement Area	● Shoalest Sounding**	■ -8' to -10'
— As-built Pipeline/Cable	□ Anchorage Area	★ Beacon, General	■ -10' to -12'
..... Unconfirmed Pipeline/Cable	⊗ Obstruction Point	♦ Red Navigation Buoy	■ -12' and below
— Project Depth Contour	⚓ Wrecks-Submerged	◆ Green Navigation Buoy	

NOTES:

Horizontal Coordinate System:
 North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum:
 Soundings are shown in feet and indicate depths below National Geodetic Vertical Datum of 1929 (NGVD29).

The location of navigation aids are based on and provided by the U.S. Coast Guard. Positions of navigation aids shown may also have been surveyed in the field by USACE.

2015 Aerial Photography data source: NAIP, 1998 DOQQ imagery shown in green from USGS.

Reference is N.O.A.A. Navigation Chart No. 11354.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (20 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

Gage Reading: ORL TB: 20.0 NGVD
 Sea Conditions: CALM
 Vessel Name: OB 189
 Survey Type: CS
 Sounding Frequency***: HIGH

Scale: 0 to 1,500 Feet
