			■ -45' to -48.5'
			■ -48.5' to -55'
			■ -55' and below

Distribution Liability: The data represents the results of data collection processing for a specific US Army Corps of Engineers project. It is not intended for use in any other project, and is only valid for its intended use, control, time and accuracy specifications. The user is responsible for the results. Distribution of the data for other than its intended purpose, or the application of the data for other than its intended purpose, is prohibited.

Data Ownership: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging operations, changes in channel conditions, and changes in the hydrographic conditions when developed after the date of the survey. The user is responsible for the results of the data. The information depicted on this map represents the results of a survey conducted on or after the date of the survey. The information is not intended to represent the general condition existing at that time.
