NOTES:
Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.
Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 12-16).
Datum Relationships for gage 01480 as of March 2020:
0.0' NAVD88, 2009.55 = -0.5' MLLW = 2.97' MLG
Distances on the Mississippi River, above and below Head of Passes are shown
at 1 mile intervals.
The location of navigation aids are base on and provided by the U.S. Coast Guard.
2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)
Reference is N.O.A.A. Navigation Chart No. 11361.

** Shoalest Sounding per Quarter per Reach.

*** High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

DISCLAIMER
Accordance: The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that the U.S. Government makes no warranties, representations or guarantees as to its accuracy, reliability or suitability for a specific purpose. The United States shall be under no liability whatsoever for any damages resulting from the use of these data. The user is responsible for the results obtained from the use of these data and for any necessary revision of same to conform to actual conditions. The user agrees to indemnify the U.S. Government from all claims arising out of the use of these data by others which may be transferred from this document.
Information depicted on this map represents the results of a survey conducted on the general condition existing at the time of publication. This data is intended for U.S. Army Corps of Engineers' internal use. Private names should not be used upon it.
