

MISSISSIPPI RIVER - B.R. TO GULF
SOUTHWEST PASS - SHEET 1
SW_01_SWP_20220411_CS
11 April 2022

Sheet Reference Number
1 of 13

Revision Number:
41-20191105

US Army Corps of Engineers District: CEMVN

DISTRIBUTION LIABILITY The data represents the results of data collection processes for a specific US Army Corps of Engineers activity and indicates the general existing conditions, as such, the data does not represent the exact or most accurate specification. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints Hydrographic survey data is subject to change due to several factors including but not limited to dredging, sandbar movement, subsidence, and coastal erosion. The US Army Corps of Engineers and the National Oceanic and Atmospheric Administration do not warrant the data as being suitable for navigation purposes. The data is intended for U.S. Army Corps of Engineers internal purposes. This data is not to be used for dredging, navigation, or surveying without consulting the U.S. Army Corps of Engineers.

DISCLAIMER The United States Government makes no warranties, expressed or implied, and disclaims all warranties, express or implied, including warranties of merchantability and fitness for a particular purpose, in respect to the data and information furnished. The United States shall not be liable under any theory of law, whether or by reason of any use made of the data, for damages resulting from the use of the data or for any inaccuracies contained in the data. The user agrees not to represent that the data is or will be used for any purpose other than that for which it was provided. The user shall indemnify the Government for any claims, losses, expenses, or damages arising out of the use of the data by the user or others who also receive this Disclaimer.

The information depicted on this map represents the results of a survey conducted on the condition existing at the time of survey. The surveyor and the government jointly accept responsibility for the survey data to the extent that they are in agreement with the general condition existing at that time.
