

**Gage Reading:** 0.3 MLLW @ VENICE @ 0830  
**Sea Conditions:** CHOPPY  
**Vessel Name:** OB-173  
**Survey Type:** CONDITION, SB  
**Sounding Frequency\*\*\*:** LOW

**NOTES:**  
Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.  
Vertical Datum: Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW). 12'-16'. Datum Relationships for gage 01480 as of March 2020: 0.0' NAVD88, 2009.55 -0.53' MLLW = 2.97' MLG  
Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.  
The location of navigation aids are base on and provided by the U.S. Coast Guard.  
2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)  
Reference is N.O.A.A. Navigation Chart No. 11361.  
\*\* Shoalest Sounding per Quarter per Reach.  
\*\*\* High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

**US Army Corps of Engineers District: CEMVN**

**DISTRIBUTION LIABILITY** The data represents the results of data collection processes for a specific US Army Corps of Engineers activity and indicates the general existing conditions, such as, but not limited to, the presence or absence of certain features. The user is responsible for the results of any application of the data for other than its intended purpose.  
**Data Constraints** Hydrographic survey data is subject to change rapidly due to natural events including but not limited to dredging and natural shoals and scouring. The user is responsible for the hydrographic conditions when developing the data after publication. This data is intended for U.S. Army Corps of Engineers internal purposes. Further distribution is not authorized upon it.
