Revision Number:
42-2000420

US Army Corps of Engineers District: CEMVN

Distribution Liability: The data represents the results of data collection processes for a specific US Army Corps of Engineers activity and indicates the general existing conditions. Such activities include, but are not limited to, hydrographic surveys, bathymetric surveys, and related activities. The user is responsible for the results of any application of the data for other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging operations, subsidence, and natural shoaling and scouring processes. The user is responsible for keeping the data current by consulting the latest hydrographic conditions when developing the survey.

The information depicted on this map represents the results of a survey conducted on the date indicated and can only be considered to represent the general condition existing at that time.
