Gage Reading:
Sea Conditions:
Vessel Name:
Survey Type:
Sounding Frequency***:

1.1 MLLW @ VENICE (01480) @ 1000
CALM
DUCARPE
CONDITION, SB
LOW

NOTES:
Horizontal Coordinate System:
North American Datum of 1983 (NAD83), projected to the State Plane
Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.
Vertical Datum:
Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 12-16).
Datum Relationships for gage 01480 as of March 2020:
0.0' NAVD88, 2009.55 = -0.53' MLLW = 2.97' MLG
Distances on the Mississippi River, above and below Head of Passes are shown
at 1 mile intervals.
The location of navigation aids are base on and provided by the U.S. Coast Guard.
2024 Aerial Photography data source: Optimal GEO (1998 DOQQ in green)
Reference is N.O.A. Navigation Chart No. 11361.
** Shoalest Sounding per Quarter per Reach.
*** High frequency (200 kHz) survey data represents the first signal return at a sounding
location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz)
survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom
material. Low frequency accuracies may vary depending on channel conditions and fathometer
settings.

Disclaimer: The data represented by the results of data collection processing for a specific US Army Corps of Engineers activity and indicates the general existing conditions. As such, the user is responsible for the results of any of the application of the data for other than its intended purpose. The Corps of Engineers is not liable for damage or injury resulting from the use of this data. The U.S. Army Corps of Engineers is not responsible for the accuracy of the data or the results of the application of the data for other than its intended purpose. The data is intended for U.S. Army Corps of Engineers internal use. Product numbers should not be used to identify the data.

DISCLAIMER: The United States Government furnishes these data and the recipient accepts and uses them with the express understanding that the data are not to be used for any purpose other than that for which they were prepared, or implied concerning the accuracy, completeness, reliability, usability or suitability for any particular purpose of the recipient. The recipient agrees to indemnify the United States Government from and against all claims, damages, losses, costs, expenses, and attorney's fees, under no liability whatsoever to any person by reason of any use of these data, whether or not such use was foreseeable, and whether or not such use was made in accordance with the terms of this disclaimer. The recipient may not transfer these data to others without also transferring this disclaimer. The information depicted on this map represents the results of a survey conducted by the United States Army Corps of Engineers and is not to be used for any purpose other than that for which it was prepared.
