Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers active and inactive hydrographic survey. The data is provided as such, without warranty of any kind, expressed or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose and non-infringement. The user is responsible for the results of any application of the data to other than its intended purpose.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including but not limited to dredging activity, subsidence, and changes in the hydrographic conditions which develop after the date of survey. The data is intended for use by the Corps of Engineers as a reference for engineering purposes and no guarantee is made as to its accuracy or completeness. The user agrees not to represent these data as other than Government provided data unless he or she has a written agreement with the Corps of Engineers to do so.

The information depicted on the map represents the results of a survey conducted on the date indicated and can only be considered b as accurate as the general condition existing at the time.
