**Gage Reading:** 0.7 MLLW @ VENICE @ 0825

**Sea Conditions:** CHOPPY

**Vessel Name:** BLANCHARD

**Survey Type:** CONDITION, SB

**Sounding Frequency\*\*\*:** LOW

**Vertical Datum:** North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

**Vertical Datum:** Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11). Datum Relationships for gage 01480 as of July 2015: 0.0' NAVD86 = -0.3' MLLW = 3.20' MLG

**Vertical Datum:** Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.

**Vertical Datum:** The location of navigation aids are base on and provided by the U.S. Coast Guard.

**Vertical Datum:** 2016 Aerial Photography data source: Precision Aerial Reconnaissance, LLC (1998 DOQQ in green)

**Vertical Datum:** Reference is N.O.A. Navigation Chart No. 11361.

**Vertical Datum:** \*\* Shoalest Sounding per Quarter per Reach.

**Vertical Datum:** \*\*\* High frequency (200 kHz) survey data represents the first signal return at a sounding location and will include suspended solids, known as "fluff", if present. Low frequency (24 kHz) survey data normally penetrates through this "fluff" layer to depict elevations of consolidated bottom material. Low frequency accuracies may vary depending on channel conditions and fathometer settings.

**NOTES:**

Horizontal Coordinate System: North American Datum of 1983 (NAD83), projected to the State Plane Coordinate System (SPCS), Louisiana South Zone. Distance units in U.S. Survey Feet.

Vertical Datum: Soundings are shown in feet and indicate depths below Mean Lower Low Water (MLLW, 07-11). Datum Relationships for gage 01480 as of July 2015: 0.0' NAVD86 = -0.3' MLLW = 3.20' MLG

Distances on the Mississippi River, above and below Head of Passes are shown at 1 mile intervals.
