US Army Corps of Engineers District: CEMVN

Distribution Liability: The data represents the results of data collection/processing for a specific US Army Corps of Engineers activity and/or product. The general existing condition of such activities and the data furnished are not guaranteed. The user assumes responsibility for any particular purpose of the information and its use. Any particular use of the data furnished, therefore, should be made by means of an analysis of the data and the results obtained. The user agrees not to represent these data as other than Government provided data without also concurring this Document.

Data Constraints: Hydrographic survey data is subject to change rapidly due to several factors including burial, shifts in dredging operations, changes in the hydrographical conditions which develop after the date of publication. The data is intended for Army Corps of Engineers use only. The data is not to be used for any other purpose.
